

COOPERATIVE ECONOMIC INSECT SUVEY REPORT  
Glenn A. Salsbury, Survey Entomologist

Report 7, Volume 55  
14 June 2007

ARMYWORM: Very heavy flight has been going on for about the past week.

JAPANESE BEETLE: Beetles are just beginning to fly in the Kansas City area.

VARIEGATED CUTWORM: A heavy flight has been going on in the Crawford County area for the past several days.

BARK BEETLES: Compared to the past several years beetle numbers are far below what had been caught in traps.

RED IMPORTED FIRE ANT: None have been detected in areas surveyed where infested plants had been brought in last year.

CEREAL LEAF BEETLE: None have been found during surveys this year.
